READER'S GUIDE

The 2000/2001 Annual Operating Budget for the City of Fort Lauderdale, Florida is intended to serve four purposes:

1. The Budget as a Policy Document

As a policy document, the Budget indicates what services the City will provide during the twelve-month period beginning October 1, 2000 and why. The Budget Message in the Introductory Section summarizes the challenges facing Fort Lauderdale and how the Budget addresses them. The Executive Summary provides more detailed information such as revenue sources and trends, expenditure categories, and descriptions of all operating funds. The Department Budgets section provides major goals and objectives for each organizational unit in the City as well as some key performance measures upon which programs will be monitored.

2. The Budget as an Operations Guide

As an operations guide, the Budget indicates how services will be delivered to the community. The Department Budgets section outlines the number of authorized fulltime equivalents and departmental appropriations approved by the Commission for the provision of services by each department. An organizational chart is provided to show how the City is structured for efficient and effective work. Also included in the Department Budgets section is a listing of major revenues which are the responsibility of each respective department.

3. The Budget as a Financial Plan

As a financial plan, the Budget outlines how much City services will cost and how they will be funded. The Introductory Section provides an overview of the budget, including major revenue and expenditure categories. Following the Budget Message, there is a discussion of the City's accounting structure and budgetary policies. The Financial Section includes projections of the City's financial condition at September 30, 2001 and comparisons of financial activity over time. The Budget document includes appropriations from operating funds for capital improvement purposes. The total Capital Improvement Plan including bond funds is summarized in the capital section. Specific information is found in the separately published Capital Improvement Plan. However, any operating and maintenance cost impact of completed capital projects is reflected in the adopted operating budget described in this document. Information about the City's bonded debt is summarized at the end of this section. More detail can be found in the separately published Comprehensive Annual Financial Report.

4. The Budget as a Communications Device

The Budget is designed to be user friendly with summary information in text, tables and graphs. A glossary of budget terms is included in the General Information section for your reference. In addition to this reader's guide, the following table of contents and the index at the end of the book provide a listing of the various topics in the Budget document. Should you have any question about the City budget that this document does not answer, please feel free to call the Research and Budget Division at (954) 761-5425.
